Re: WC Docket No. 18-336 and CC Docket No. 92-105 regarding the National Suicide Hotline Improvement Act of 2018.

Dear Madam:

The Lycoming County United Way appreciates the opportunity to comment on the current effort undertaken by the Federal Communications Commission to study the feasibility of designating a three-digit number to the National Suicide Hotline and to assess the effectiveness of the current National Suicide Prevention Lifeline. In our three county jurisdiction which includes Lycoming, Sullivan and Tioga Counties, Pennsylvania, our United Way is fighting for the health, education and financial stability of every person in every community by investing in our regional 211 system and advocating on behalf of the service with our 42 human service partners in three counties. Our work in emergency homeless shelters, domestic violence, hunger and emergency rent and utility assistance is all supported by this system.

We acknowledge efforts are needed to create a safe place for all people to call for assistance – especially underserved or marginalized populations such as seniors, people with physical or intellectual disabilities, people that identify as LGBTQ+, Veterans, American Natives, non-English speakers, and individuals facing complex problems such as substance/opioid use, human trafficking, and domestic violence. Our organization has a 96-year history of reaching out to the underserved and partnering with hundreds of businesses, partner agencies, local government and private donors to drive systemic changes for our community's toughest problems like mental health and crisis intervention.

We encourage the FCC to consider our long-standing and effective 211 work here in Lycoming, Sullivan and Tioga Counties as a vital partner in increasing access to suicide prevention and intervention services. Since the FCC designation of 211 in 2000, we have invested in the success of 211 and find the service a valuable asset to addressing our communities needs for health and human services.

**GIVE. ADVOCATE. VOLUNTEER.**  
Mobilizing Resources to Improve Lives.

Please remember Lycoming County United Way in your estate plans.

Moreover, each year our United Way invests more than \$750,000 in mental health, substance use, health, education, and other financial stability services. These critical investments position us to be key partners in the success of an improved mental health and crisis response system. Another three-digit code will erode the simplicity of a single point of access for community help.

Despite concerted efforts by numerous social services, and multiple hotlines, in our community to educate and market the distinctions, a person in crisis will always reach for the most familiar or most accessible number. Our 211 receives calls that are better suited for 911, and our 911 partners often receive calls that we can best answer. We recommend that resources should be invested to improve a unified single point of access with a blended partnership of the National Suicide Prevention Lifeline and United Way's 211 services. We believe in the power of partnership to address gaps, not duplicate services, and will be a valuable partner in the fight against suicide. Our 211 staff current receives calls from people who are experiencing thoughts of suicide and are able to handle these calls. One of the 211 centers has staff cross-trained to handle crisis calls and 211 calls.

We respectfully note that our 211 staff work with vulnerable and homeless veterans on a daily basis to ensure that they are housed in an expedient manner and to make sure they are connected to service that can help them overcome whatever challenges they are facing.

You can learn more about our work at [www.uwp.org](http://www.uwp.org) and can reach my office for additional questions or discussion at (570) 666-4382 (direct line). Thank you for your time and consideration in addressing this important issue for our communities.

Sincerely,

Ronald A. Frick  
President
